Modifications

1. PERMANENT CHANGE TO MORNING GATE HOURS

To prevent event traffic from cutting through our community streets to access Roan Street, the Mosaic Arena, the Turner Center, and the High School,

◊ Effective November 1, 2026 , the Front Gate will open at 8:00 AM, seven days a week.

How to Access the Gates During Closure Hours

Instructions for Dial-by-House-Number Entry:

1. **At the Entry Pad:** Dial your specific (3-digit) house number. The gate system will automatically call the phone number you registered with the community office.
2. **Answer the Call:** When you answer the call from the gate, press 9 on your phone's dial pad.
3. **Listen for Confirmation Tone:** Your phone will beep, and the call will disconnect.

This indicates the gate has successfully opened. *(Note: If the call does not disconnect, press 9 again).*

PROGRAM these numbers into your phone so you do not ignore the call from an Unknown Number or think is a Spam Call

ARCADIA VILLAGE OFFICE NEWS

IF AN ALLIGATOR ON THE PROPERTY BECOMES A NUISANCE —

IT ADVANCES TOWARD A PERSON, ANIMAL, OR GOLF CART — CONTACT THE OFFICE AT (863) 494-5669, OR SECURITY JOE AT (863) 558-1656 AFTER HOURS. THE OFFICE HAS A SPECIAL NUMBER TO CONTACT THE FWC HOTLINE, AND A NUMBER TO CONTACT THE TRAPPER FOR OUR PART OF THE STATE OF FLORIDA.

BUT IF THE GATOR IS JUST SUNNING HIMSELF, ENJOY THE VIEW! ALLIGATORS ARE A NATURAL PART OF LIFE HERE IN FLORIDA. SUNNING IS SIMPLY HOW THEY WARM UP AND REST, AND A GATOR STRETCHED OUT ON THE BANK IS NOTHING TO FEEL THREATENED BY WHEN YOU WATCH FROM A DISTANCE. THIS IS THEIR HOME TOO, AND WE DO NOT WANT TO HAVE HIM REMOVED FOR SIMPLY LIVING HIS BEST LIFE. SO SLOW DOWN AND ENJOY THE WILDLIFE.

Living with Alligators

Florida has a healthy and stable alligator population, which is estimated at 1.3 million alligators of every size.

Alligators have inhabited Florida's marshes, swamps, rivers, and lakes long before people lived here and are found in all 67 counties.

In recent years, Florida has experienced tremendous human population growth. Many residents seek waterfront homes and increasingly partipation in water-related activities. This can result in more frequent human-alligator interactions and a greater potential for conflict.

Serious injuriess caused by alligators are rare in Florida. From 2012 to 2022, Florida has averaged with unprovoked bites per year that are serious enough to require professional medical treatment.

Frequently Asked Questions

What is a nuisance alligator?
Generally, an alligator may be considered a nuisance if it's at least 4 feet in length and believed to pose a threat to people, pets, or property.

What should I do if I see someone feeding an alligator?
Call our wildlife Alert Hotline at **888-404-FWCC** (888-404-3922). Callers can remain anonymous.

What happens after a trapper removes an alligator?
When a contracted nuisance alligator trapper removes an alligator, it becomes the property of the trapper. In most cses, the alligator is processes for its hide and meat. Occasionally, a nuisance alligator is sold alive to an alligator farm, animal exhibit or zoo.

Safety Tips

- Keep a saef distance if you see an alligator.
- Keep pets on a leash and away fromthe water's edge. Pets often resembe alligators' natural prey.

- Swim only in designated swimming areas during daylight hours and without your pet. Alligators are most active between dusk and dawn.
- Never feed an alligator. It's illegal and dangerous. When fed, alligators can lose their natural wariness and instead learn to associate people with the availability of foof. This can lead to an alligator becoming a nuisance and needing to be removed from the wild.

At this time, we are looking for volunteers to help with the following areas:

» ***HOA President (Contact a HOA member)***
» ***HOA Treasurer (Contact a HOA Member)***
» ***Friday Afternoon Dominos (Contact Kathy)***

DELTA HEARING

Managing Hearing Loss Can Reduce the Risk of Dementia

Studies have shown that untreated hearing loss is associated with an increased risk of dementia. Hearing loss makes it difficult for the brain to receive and retain spoken information. When this occurs, it can leave you feeling fatigued, forgetful, and more likely to withdraw from social situations.

What the Research Says

1. The risk of dementia could be reduced by **treating pre-existing conditions**, such as hearing loss
2. Individuals wait **an average of 10 years** before seeking treatment for hearing loss
3. Older adults **who wear hearing aids** can likely **reduce their risk of dementia** in half over time

To reduce the chances of cognitive decline and dementia, it is important that individuals with hearing loss seek help immediately. Our team can diagnose hearing loss and prescribe hearing aids as a management option.

Facts About Hearing

1. Over time, being around **too much loud** noise can make you lose your hearing
2. Once you've lost your hearing, **you can't get it back**
3. **5 in 10 people** listen to their music too loudly, and **4 in 10 people** are exposed to dangerously loud noise levels at concerts or sports games
